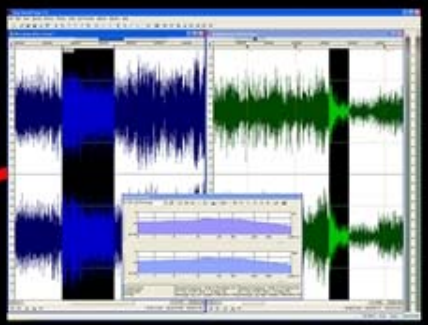
Event Phtotography

Sound Editing



As producers and Directors of live performances, we understand what it takes to put on a successful production. With years of experience and state of the art equipment, we can work with you on one, several or all the multimedia components of your production to help make it a success. From conceptual ideas at the beginning to the final delivery of products at the end, our goal is to integrate the different multimedia phases of the production so they look and feel related and of the highest quality standards.
